 This course is designed to assist early educators, parents, and others to provide environments which are conducive to pre-literacy experiences for children. Most preschool teachers are diligent about introducing their students to a large variety of literature and pre-literacy activities. But emotional literacy – the ability to identify, understand and respond to emotions in you and others in a healthy manner – is even more basic to school readiness. We'll examine the many benefits to children who gain a strong foundation in emotional literacy, explore simple ways in which you can foster emotional literacy in your classroom, and share some excellent resources for tools and activities teachers can incorporate into their daily classroom curriculum to make intentional teaching of emotions fun and easy. Instructor will provide feedback on outcome mastery throughout the training session to assess skills and knowledge gained as a result of this training session. **This course will be held by Kyndra Boyette, Regional Healthy Social Behavior Specialist.**
